of Traders

Why Study?

We have been featured in many different publications such as NASDAQ, Bloomberg, Yahoo Finance, Global Banking & Finance review, TEDx, Forbes to name a few. Additionally we work with local government on various community projects and our director is the enterprise advisor to West Herts college in Watford.

History

2012

Samuel + Co Trading was founded by Samuel Leach in 2012. This was following a strong demand for Samuel to take his experience and knowledge and pass it on to other traders.

2016

Due to building a strong reputation in the industry, Samuel + Co Trading grew rapidly and we opened our 1st Trade Floor in 2016.

During this time, the widely popular S&C Algo, Fusion was released and the company started recruiting Junior Traders

History

2019

In 2019, Samuel released the 1st Real Forex Trader series on YouTube, hosted our first trading challenge.

The office kept expanding, as did the number of Samuel + Co Traders.

2020

During 2020, we launched another Expert advisor, BeastMode. Samuel was rated the Number 1 Trader to follow by Yahoo. The new office was purchased and renovated to what it is today.

History

2021

As published in many media outlets, in 2021, one of the Samuel + Co Trading Algos was sold to a European hedge fund for a 7 figure deal. We also launched Beastmode 2.0 and officially opened our new office in Kings Langley.

2022

We launched our Level 5 & 7 Diploma programmes and released our highly anticipated VIX algo! Samuel + Co became an advisor to West Herts College and Samuel received SME Business Person of the Year 2022.

Our Aim

The aim of Samuel + Co Trading is to improve widespread financial literacy which we feel has been neglected by traditional education institutions.

We also hope to give individuals with non-traditional education backgrounds the opportunity to get involved in the financial markets and better understand how the world of finance operates.

What Do We Offer?

- **Level 5 Advanced Diploma in Financial Trading**

Taught over 12 weeks and the equivalent level to a foundation degree this is a great place to start your journey covering a broad range of topics such as:

Derivatives markets, macro and micro economics, technical analysis, bonds, foreign exchange market, commodities, options, indices, trading psychology and more!

- **Level 7 Diploma in Applied Financial Trading**

Our 6 week course is currently our highest level of education which is the equivalent level to a Masters Degree. Covering topics such as:

Algorithms, trading systems and execution, option pricing, global financial Markets and many more!

Why S+C?

Samuel + Co Trading has cemented itself as an industry leader. One of the only trading educators and funded programmes with over 10 years in the industry!

We have over 400+ traders alongside a trade floor which our traders can access as well as a thriving online community allowing all of our traders to interact in one place.

Our Facilities

Our facilities are designed to give you the best possible experience when trading or studying with Samuel + Co.

You can book your spot in our trade floor where you can meet other like-minded individuals.

We have our very own gym with all the equipment that you need for a high performance workout.

Traders can make use of our state of the art cinema room. You can sit back, relax and enjoy a film. We also have regular events such as gaming tournaments which makes use of the Cinema room.

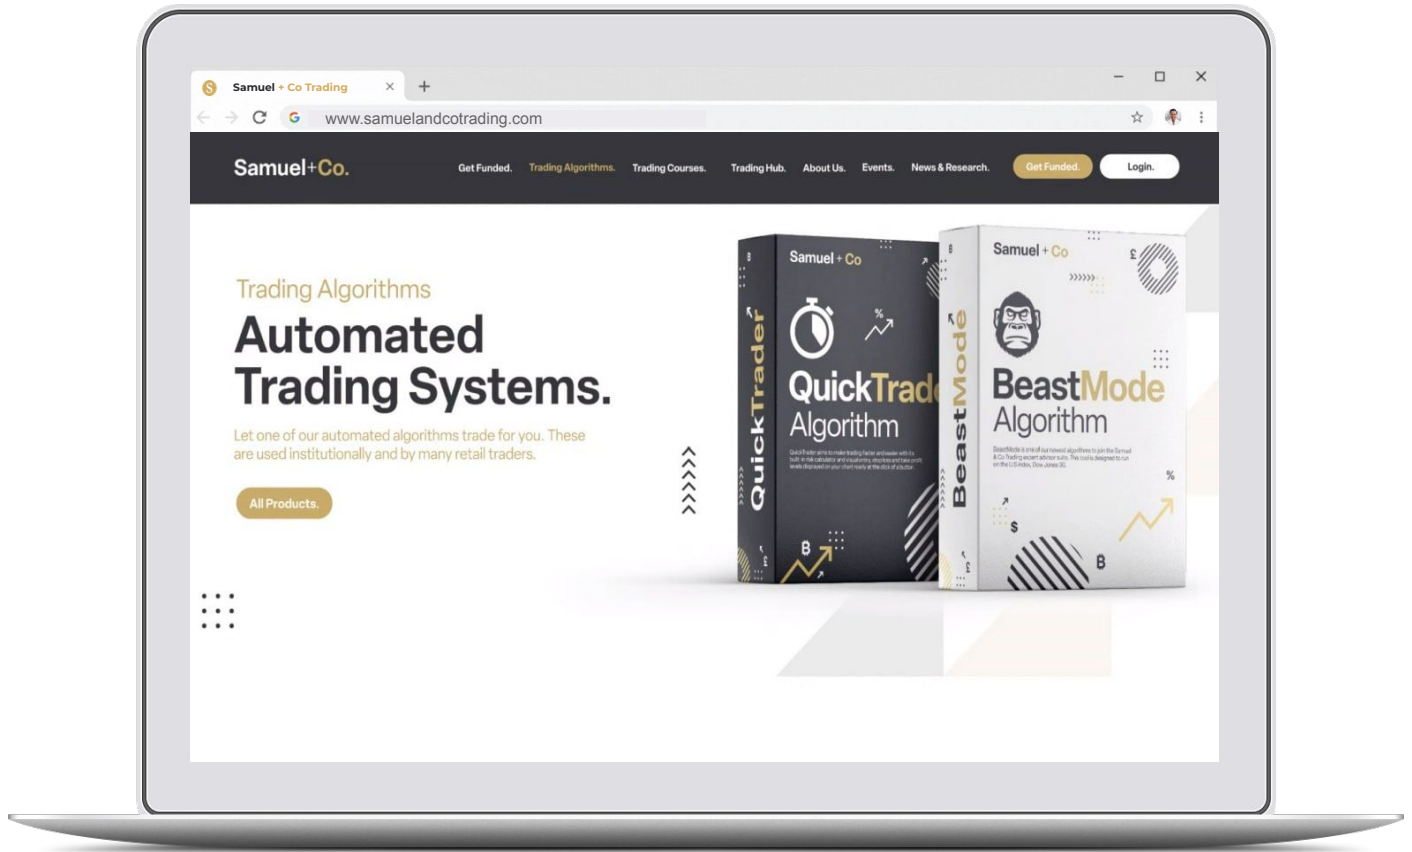

We regularly host trader meets ups and exclusive S+C trader community events such as; live seminars, paintballing and mini-golf!

By being a member of the Samuel + Co community, you can chat with other like-minded individuals from all over the world via our Trader Hub. This is a Discord server, where our traders share analysis and discuss ideas to connect with other people.

Why Do We Offer Diplomas

As an industry leader for over 10 years, we wanted to build upon our current offering when it comes to education. Many trading communities and educators do not equip traders with the necessary knowledge to become a professional trader or improve their employability. Therefore, we wanted to offer a programme that separates ourselves from the competition and to provide individuals with an Ofqual regulated qualification at the end of it.

Purpose of the Programmes

Trading Knowledge

The information provided in the programmes equates to a lifetime of trading knowledge. You can use the knowledge gained to improve your own trading decisions and gain a firmer understanding of the fundamentals that drive financial markets.

Career Prospects

A great option to kick start or boost your career within the financial markets. A certified higher level qualification in Financial Trading can help separate yourself from the competition when applying positions in investment banks, hedge funds and other financial services companies.

Examples of Level 7 qualifications:

- Master's Degree
- Integrated Master's degree
- Postgraduate Diplomas
- Level 7 Diploma

Whatever your goals are within the financial markets, both of the programmes are an effective way to gain a high level of accreditation and expertise in the field that you may not have access to otherwise.

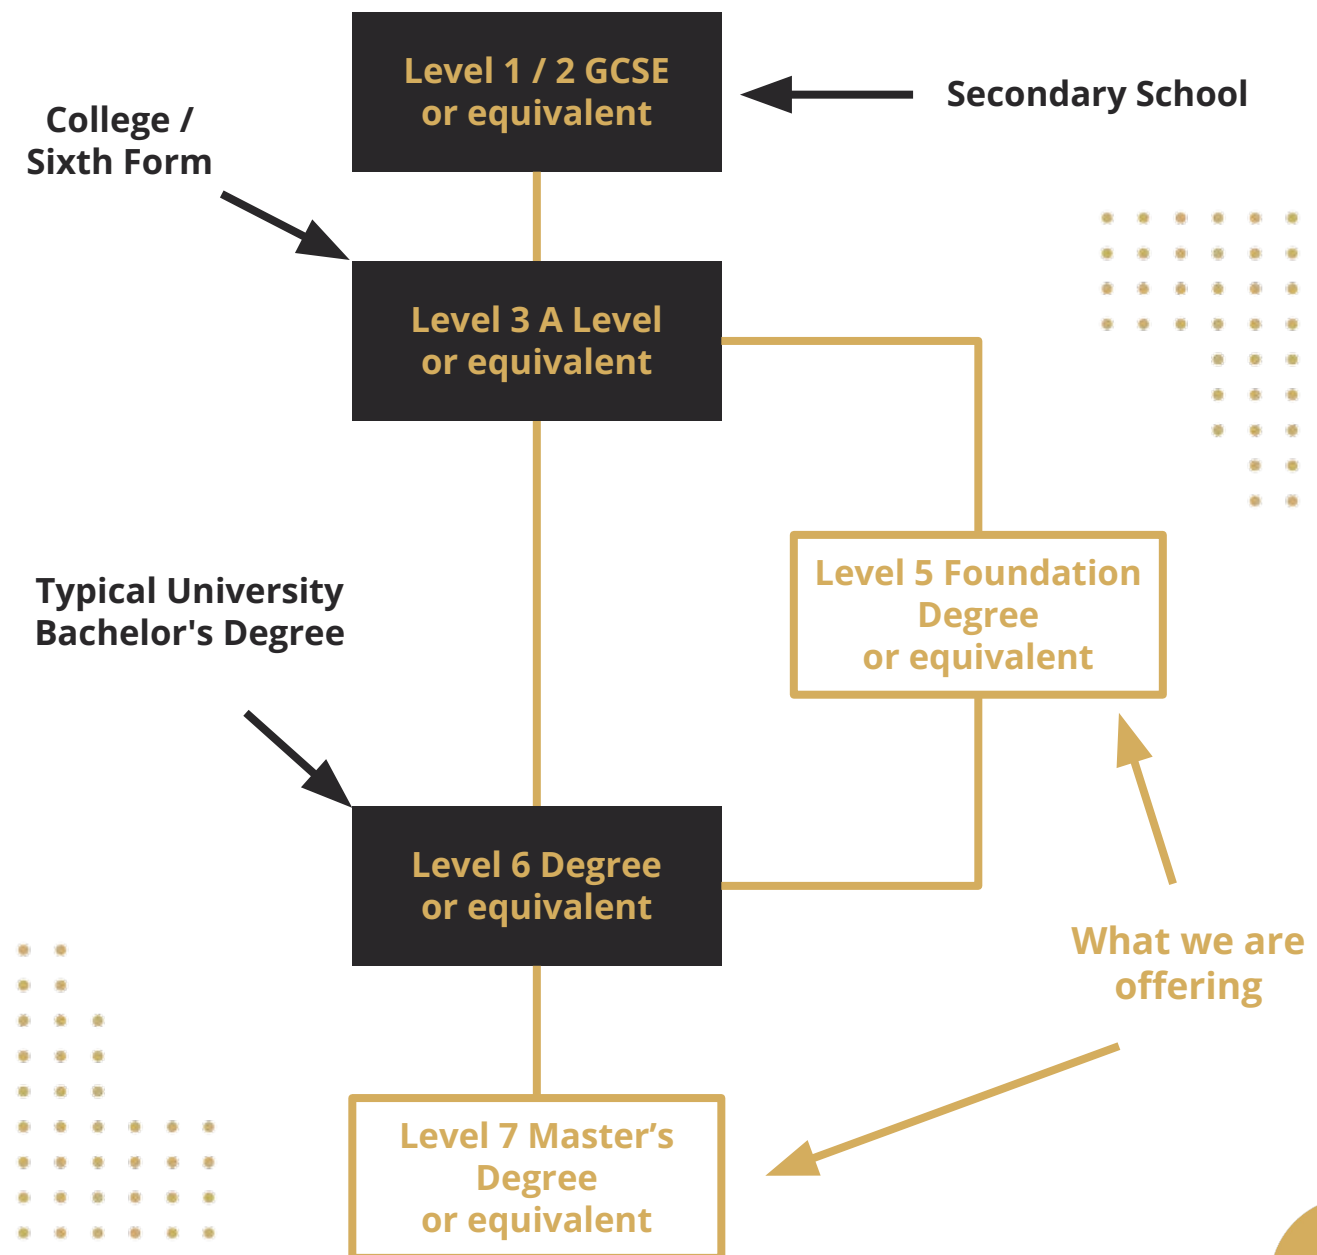

You can use the knowledge gained to kick start or further your career in the financial markets, such as using it as a stepping stone for progressing into insitutions.

Alternatively, you may decide to use this knowledge to enhance your own trading performance and skill set. An institutional understanding will help separate you from everyone else in the markets.

The Level 5 Diploma is the equivalent level to a Foundation Degree. By completing the Level 7 Diploma, you will have the equivalent level to a Master's Degree in Financial Trading.

Both employers and higher education institutes recognise Level 5 & Level 7 Diplomas as one of the highest level of expertise. Only a doctorate (PhD) stands above a Level 7.

According [FindAMasters.com](https://www.findamasters.com/), it is estimated that around 1.3% of people in UK hold a Master's Degree (2017)

We fast-track the programme by increasing study time from around 10 hours per week to 40.

By doing this we are able to reduce 3-5 years of study into 18 weeks in total for both Level 5 & Level 7.

Fast-Track

Students who go to University generally build up large amounts of student debt and can struggle to get the experience required to get their foot in the door of many companies.

Many students end up applying for highly competitive graduate schemes with a relatively low success rate.

Figures from the Graduate Outcomes survey indicate that postgraduates are around 18% more likely to be in a professional role!

Forbes

We fast-track the whole process of earning a qualification by completing years worth of study into 18 weeks (L5 & L7) + 3 months work experience!

You can then use the knowledge you have gained as well as the work experience to gain an advantage in your career, or gain valuable insights for your own trading journey. Save money and time via the diploma route!

- Any trading experience

Additional information

- Can be completed remotely or in person
- All assessments are complete via portfolio submissions
- Community access

Level 7

Entry Specifications:

- 19+ years old

For a candidate that plans to move straight onto our Level 7 diploma in Applied Financial trading, It is recommended that they hold a 2:2 or above (or equivalent) at degree level in any of the following subjects:

- Economics
- Finance
- Accounting

Although a 2:2 at degree level in any subject would qualify you to enroll on this course. There will be a certain level of assumed knowledge.

Alternatively

- Candidates that hold our Level 5 Advanced Diploma in Financial Trading can move straight onto the Level 7 diploma in Applied Financial Trading

Summary of the modules:

- Algorithms and their functionality in the financial markets with a focus on execution
- Developing trading and investment strategies using various forms of complex analysis
- Using functional trading systems to mitigate risk and to support trade and investment execution
- Complex evaluation of data implied by option prices and volatilities to further support analyses
- Trading strategies for different asset classes and their methodologies
- Formulating trading techniques involving combination techniques for different asset classes
- Financial markets role on the global stage and their impact
- Environmental factors and their impact on financial markets
- Plus many more..

Level 7

2023 Programme Dates

5

Level 5: 7th August - 27th October

7

Level 7: 6th November - 15th December

2024 Programme Dates

5

Level 5: 29th July - 18th October

7

Level 7: 4th November- 13th December

Another benefit is the option to attend the programme in-person or via live online webinars for the presentations.

You can take notes during these presentations in the same way you would a lecture. For virtual learning, you will have to have a working computer and webcam on at all times when attending a lecture as a programme requirement.

**Virtual or
In-Person**

We have a limited capacity for in-person learning at around 32 participants per intake. However, we have additional spaces for individuals to register for virtual teachings.

Due to the nature of the programme, you will be required to attend lectures (either in-person or remotely) at specific times of the day over the length of the diploma.

Therefore, this programme will require your full attention and focus. Balancing other commitments such as work or other studies should be taken into consideration.

I can't get the time off work...

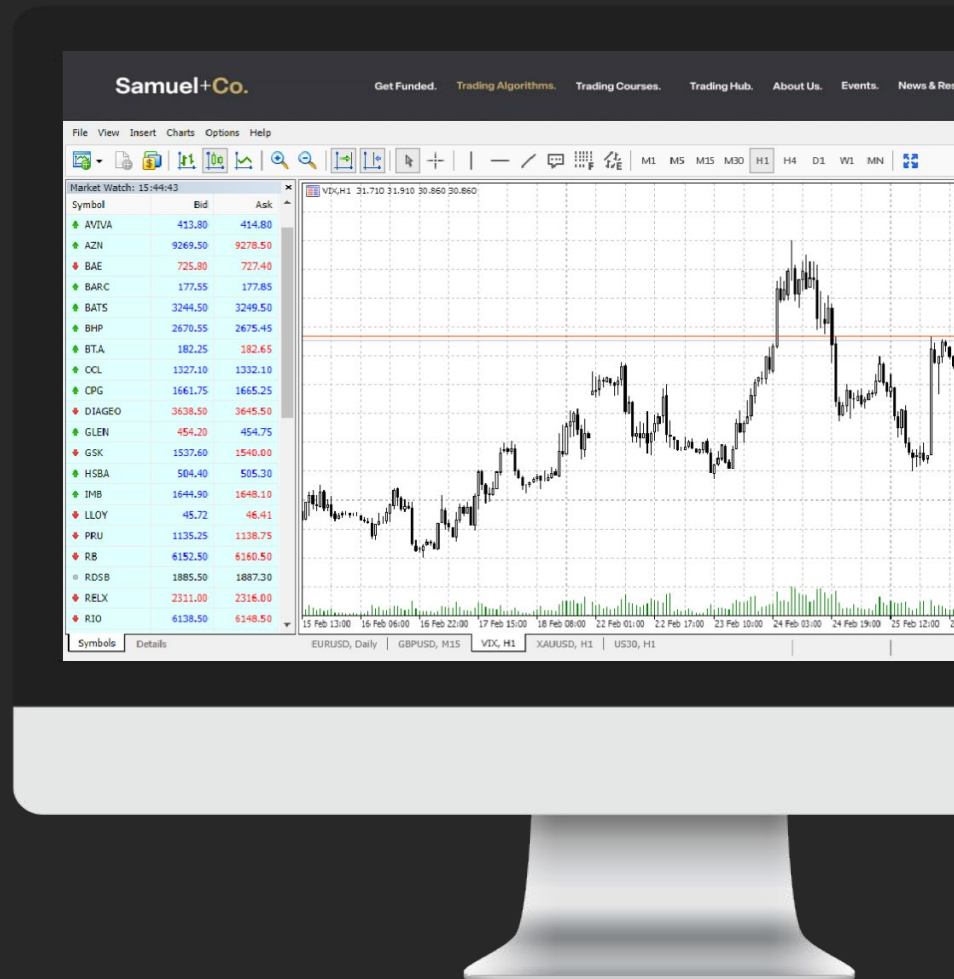

Many individuals would love to further their education but are unable to sit the classes during their current work schedule, so we are excited to offer evening classes from 2024.

Evening classes are completed remotely with a coach on hand to offer support to the students. For further information regarding how our evening classes work please contact LS@samuelandcotrading.com

Work experience is typically overlooked by traditional education institutions with many students leaving university with no work experience. When partaking in our Level 5 Diploma in Financial Trading we offer the option to complete work experience at no additional cost giving all the students real life relevant work experience.

Work Experience

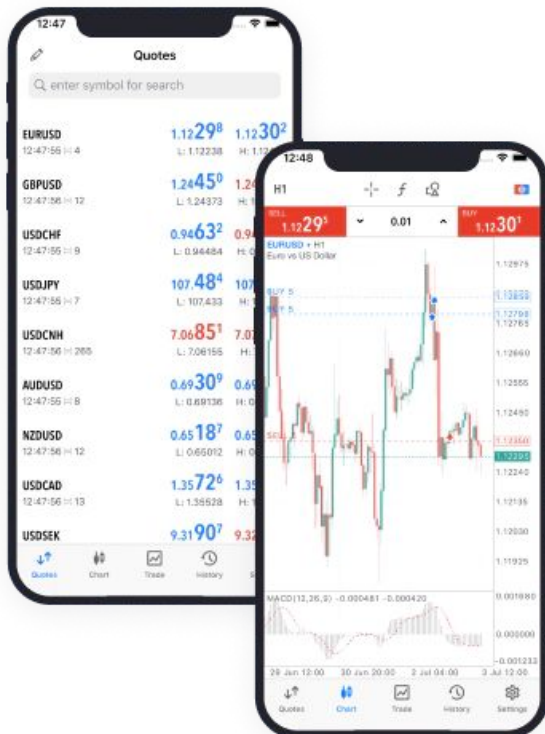

Our work experience allows you to trade a funded account whilst you study, applying many of the concepts taught in the programme, which you can use going forward in your trading career.

Our funded accounts are traded by our 400+ traders. Over the a 3 month period, you will be given access to a \$25,000 account from Samuel and Co Trading which you can trade on a 50:50 profit split allowing you to potentially learn and earn at the same time.

This provides you with experience of trading in the financial markets, applying what you are learning in the programme.

Funded Account

Individuals are able to use the funded account
to generate additional income whilst studying
for no additional cost.

Traders could compensate some of the programmes cost
or even cover the whole cost, depending on performance.

Participation in our work experience programme comes with
the guarantee to be offered to continue on the account after
the course has been completed*.

Earning Potential

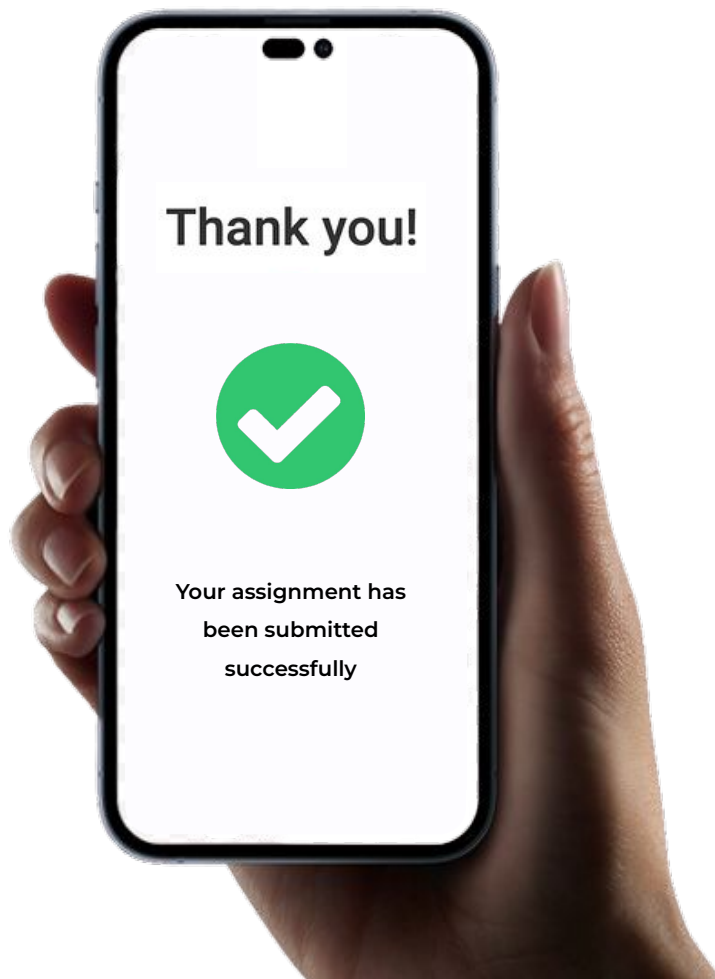

*Fees will apply after completion

Portfolio Submission

On both our Level 5 and Level 7 programmes we make use of portfolio submissions instead of final examinations.

This is the case for both in-person and remote studying.

This allows you to work on your portfolio in your own time through coursework assignments without the pressure of performing in an exam.

Feedback will also be given virtually so there will be no need to store physical copies.

Results

Student Name	Grade	Percentage
John April	B+	75
Jim Rogers	A	80
Angela Spader	C	60
Blake Johnson	A	85
Megan Long	D	55
Denise Scott	A+	95
Aaron Brown	A+	100
Oliver Wallace	B	70
Timothy James	C	60
David Peters	A	85

Passed

Once submitted, the assignment will be reviewed and you will be notified when you receive your results.

Level 5 Diploma

£3.2k + VAT

Level 7 Diploma

£3.5k + VAT

When you consider the cost of our programmes in comparison to traditional education qualifications, the overall cost is significantly lower.

Cost Breakdown

Calendar						
		1	2	3	4	5
6	7	8	9	10	11	12
13	14	15	16	17	18	19
20	21	22	23	24	25	26
27	28	29	30	31		

0% Interest Payment Plan

To help facilitate the upfront cost of the programme, we are offering a payment plan. This can help you to break the payment up into smaller, affordable monthly payments before the start date.

The terms of the payment plan varies on whether you take the Level 5, Level 7 or both together. Normally our payment plans require a 10% upfront deposit with the remainder of the course costs being split into monthly installments.

For more information please contact
LS@samuelandcotrading.com

Upon successful completion of either the Level 5 or Level 7 Diploma, all students will be invited to graduation.

Participants are able to celebrate their achievements with other graduates in a big celebration hosted by Samuel + Co Trading.

Graduation Event

We are looking to have guest speakers at the ceremony, such as hedge fund managers, investment professionals and other inspirational individuals. You may see some familiar faces!

The dates and details will be announced once confirmed - but we already have a few ideas on how we can make it a Graduation you won't forget!

Conclusion

Thank you for taking the time to read through this prospectus. We are looking forward to having you on board!

Overall, these programmes are designed to equip you with expert-level knowledge over a variety of different topics across the financial markets. Use the diploma to help improve your own trading, or help kick-start a career.

We hope that you have enjoyed reading about our Level 5 & Level 7 Diploma programmes. If you have any further questions or queries, please contact

Ls@samuelandcotrading.com for more information.
